**General Manager  
Chevron Oronite China**

Yu Baiqiang is general manager of Chevron Oronite China based in Shanghai, leading team to enhance enduring relationships with partners, providing innovative technology of lubricant/fuel additives to China customers as a reliable supplier.

Baiqiang joined Chevron Oronite in 2004 as technical sales manager and has since held a variety of positions in Singapore and China. The breadth of skills through his different experiences has allowed him to undertake the responsibility in delivering Chevron Oronite's ambitious goal to be the global additives company most admired for its people, partnership and performance in China.

Baiqiang graduated from Zhejiang University with bachelor degree in chemical engineering.
